### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Howard Lee on 8/26/08.

**Claim 11:**

Please change the first three words of claim 11 from "An ultralow dielectric" to --A dielectric--.

**Claim 12:**

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The previously relied upon prior art rejection of claims 1-13 to Yim et al. in view of Lambert et al. have been overcome by Applicant's arguments. Specifically, Applicants argue that Yim et al. does not teach or suggest the claimed compounds. While Yim et al. does teach cyclodextrins which may have  $-\text{OSi}(\text{OR})_3$  groups attached thereto, Yim et al. does not teach cyclodextrins which have  $-\text{O}(\text{CH}_2)_3\text{Si}(\text{OR})_3$ . The difference between Yim et al. and the instant claims is the presence of the propyl spacer. Lambert was relied upon to teach this structural unit. However, as pointed out by Applicants, the structures taught by Lambert deviate from the instant claims significantly and as

Art Unit: 1796

such, renders the combination of Yim et al. and Lambert et al. to be improper. The Examiner is persuaded by these arguments. Yim et al. is believed to be the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
